Dear Sir:

Enclosed please find an amendment application for an existing NRC By-product Material License #12-18787-01 for the E.D. Edwards Generating Station of the Central Illinois Light Company. Also enclosed is a check for forty dollars (\$40.00) to cover the amendment fee.

The license amendment application is for the possession of one additional (Cesium-137, Americium-241: Beryllium) sealed source with maximum activity of 9 mCi and 40 mCi, respectively. The source is contained in Troxler Electronic Lab., Inc. surface moisture-density gauge utilized at the Duck Creek station for moisture and density indication of construction materials. If there are any questions concerning the amendment application, please contact the writer at 309/672-5477.

Very truly yours,
