Docket No. 50-334
50-412

Mr. J. D. Sieber
Vice President
Nuclear Group
Duquesne Light Company
Post Office Box 4
Shippingport, Pennsylvania 15077

Dear Mr. Sieber:

SUBJECT: NRC INSPECTION REPORT NOS. 50-334/92-26 AND 50-412/92-26

This letter transmits the report of the resident safety inspection by Mr. L. Rossbach and Mr. P. Sena at the Beaver Valley Power Station in Shippingport, Pennsylvania. The reporting period covers from November 19 to December 21, 1992. The inspection consisted of document reviews, interviews, and observation of activities important to public health and safety. The findings were summarized and discussed with you and other members of your staff at the conclusion of the inspection.

Overall, the plants continued to be operated safely and conservatively. Your staff identified that an incore detector was not surveyed for contamination prior to installation as required by your procedures. This violation is not being cited because of its minor safety significance and the isolated nature of this event. No reply to this letter is necessary. Your cooperation with us is appreciated.

Sincerely,

Original Signed by
A. Randy Blough
