Dr. Thomas E. Murley, Administrator  
Region I  
U.S. Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, PA 19406

Dear Dr. Murley:

Subject: Forked River Site (FRS)  
Docket No. 50-363  
Licensing No. CPPR-96  
Inspection No. 80-02

This letter is to provide you with a further update to our March 30, 1984 submission which outlined the soil erosion control and stabilization projects being undertaken at the Forked River Site. The revegetation of the banks of Oyster Creek between the southern access road to the FRS and the Oyster Creek Nuclear Generating Station Discharge Canal was divided into two portions, with the eastern portion completed in 1984. The area west of Oyster Creek was completed in June under Soil Conservation District Permit No. 1281.

If you have any questions please do not hesitate to contact Mr. Douglas Moore of our Licensing and Regulatory Affairs Department at (609)971-4630.

Very truly yours,

Peter D. Fiedler  
Vice President and Director  
Oyster Creek
