Dear Mr. Smith:

SUBJECT: INSPECTION REPORT NOS. 50-352/92-30 AND 50-353/92-30

This letter refers to the inspection conducted by Mr. J. E. Carrasco of this office on November 30 - December 4, 1992, at the Chesterbrook office and at the Limerick Generating Station, Units 1 and 2. The inspector discussed the results of the inspection with Mr. G. V. Cranston and other members of your staff at the conclusion of the inspection.

This inspection focused on activities important to public health and safety and was directed towards engineering activities with emphasis on the adequacy of programs for engineering and technical support of the plant operations including management support, interfaces with internal and external organizations, design modifications, and professional proficiency of the engineering staff engaged in the design modifications.

Details on the areas examined during the inspection are described in the NRC Region I inspection report, which is enclosed with this letter. Within these areas, the inspection consisted of selected examinations of procedures and representative records, interviews with personnel, and observations by the inspector.
