Chairman
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Gentlemen:

As a private citizen I resent and deplore the terrible expense you have caused me and the people of North Carolina as taxpayers (through the use of your time in hearings) and as a consumer of electricity in the delays you have allowed in "start-up" on Duke Power Company's McGuire plant.

I am personally a member of Sierra Club, Audubon Society, Appalachian Trail Club and the Nature Conservancy, so I am not opposed to care and protection of our environment; but I resent the use of the young people of these organizations by such as the Carolina Environmental Study Group to advance the ego trip of one Jesse Riley.

Please act with deliberate speed to set in motion the activation of the power plant at McGuire. You have taken enough time and given sufficient consideration to these "doomsayers" probable scenarios. Enough is Enough!!

Sincerely,
James H. Ramsey
(Mrs. C. W. Ramsey)

7411 Canterway Dr.
Charlotte, NC 28212

April 1, 1981

Dear Chairman Hendrie -

Please do not grant a license
to Maguire Nuclear Station as
it has not been proven to be a
safe facility.

Please do not change the
public's right to gather information
for use at licensing hearings.

Charlotte has ~~no~~ evacuation
plans - The school system
simply follows Duke Power's
suggestion of a 10 mile radius
evacuation! Does radiation
really go 10 miles & then stop!?

DSO³
5/10

Please understand that more
time and more hearings are
desperately needed before Maguire
should be granted a license to
operate. So many lives are
much too close to this plant.

Very truly yours,
Lillian A. Wade
(Mrs. Henry G. Wade)

a Mother asks:

DOCKET NUMBER 50-369,370
PROD. & UTIL. FAC.

Dear Sir -

Please Please do not be
stampeded into a license for
Mc Graw Atomic Plant in N.C.

on these personal grounds that
^{DUKE}
~~any~~ cannot make our Bodies
safe from escaping radio
active poisons - for ourselves
Neighbors + children.

When is enough, enough?

When it is into our private
Body Parts - our holy places
our lungs - Pu 239 ^{iodine}
our bones - STR. 90 ^{our} THYROID

DS03

This is strong Power —
Another "God" — with
no justice or mercy

once we are attacked by
^{year} ~~after~~ ^{A Tradition of} radio active Poisons —
^{Year} } our life is threatened
+ there is no let up —
no law to ever quit it.
once it is into our
Genetic Pool. Money is
not the Question — the
Plants were built before
Citizens could object.

Please help Citizens
against "Puke Power" over & in
our Temples.
