Dear Mr. Opeka:

Subject: Millstone Nuclear Power Station Unit 3 First  
Draft Technical Specifications

Enclosed is a copy of the first draft of the Millstone Unit 3 Technical Specifications. This first draft is based on Northeast Utilities' submittal dated December 7, 1984, as compared with draft Revision 5 to the Westinghouse Standard Technical Specifications. This draft document will be the basis for a site visit the week of June 17th to discuss areas where additional information may be required to ensure that the final plant technical specifications are documented in the FSAR as accepted in the SER and reflected in the "as-built" plant design.

Sincerely,

B. J. Youngblood, Chief

Division of Licensing
