Attn: Mr. Burnell E. Brown  
Facility Manager  
Gore, Oklahoma 74435

Gentlemen:

This letter will confirm Mr. James E. Hyder's telephone conversation with Mr. Allen Valentine concerning a planned inspection of the activities authorized by AEC Source Material License No. SUB-1010, beginning on Monday, September 20, 1971.

Mr. Hyder will be interested in the status and conduct of your radiological safety program, and your general practices and procedures that are applied to the use of the licensed material. In addition, he will review your records of receipt, transfer and disposal of licensed material, your records of radiation surveys, and your records pertaining to personnel exposures.

If Mr. Hyder's schedule presents an unusual inconvenience to you, please advise me by telephone, 303-837-4211, at your earliest convenience.

Sincerely yours,
