King of Prussia, Pennsylvania 19406

Dear Jenny,

Please refer to our license No. 18-02649-03. I've attached the information requested per our conversation April 19. A copy of the check submitted to cover our renewal fee is part of the letter.

The problem with the 1100 MiCu source size may be cleared up by referring to Sentrol's State of Georgia license. I believe the amendments you will be interested in are: GA 458-2, amendment 02; and GA 458-3G, amendment 07. Both are dated February 5, 1980 and reference allowable limits of 1500 MiCu.

Please contact me at (207) 728-3321 if other information is required.

Sincerely,

A.M. Slowik
Manager, Process Control Systems
