Mr. John W. Flora, Director  
Division of Compliance  
Region IV  
10395 West Colfax, Room 200  
Denver, Colorado 80215

Dear Mr. Flora:

Your prior notification of Mr. James Hyder's recent inspection of our Sequoyah facility was appreciated. As coordinator of the Radiation Health and Safety for Kerr-McGee Corporation, one of my responsibilities is to coordinate activities with the AEC Compliance Division. To fulfill this responsibility, I plan to participate in AEC inspections conducted at our licensed facilities. Your prior notification allowed me to do this at Sequoyah and it is hoped similar arrangements can be made in the future for all Kerr-McGee activities inspected by Region IV. This is especially true for operations conducted under license Nos. SUA-616 and SUB-1010 for the Grants Mill and Sequoyah facilities, respectively. You can contact me by telephone at (405) 236-1313.

We are looking forward to Mr. Hyder's reinspection at Sequoyah and your cooperation is very much appreciated.

Sincerely,

Allen M. Valentine  
Coordinator, Radiation Health  
and Safety
