APPEAL OF INITIAL FOIA DECISION

84-A-62E (84-506)

Rec'd 7-23-84

Re: FOIA 84-506
APPEAL FROM AGENCY FAILURE TO RESPOND

Dear Mr. Felton:

This is an appeal pursuant to Subsection (a)(6) of the Freedom of Information Act (FOIA), as amended 5 U.S.C. § 552.

By letter dated June 15, 1984, the Government Accountability Project (GAP) requested documents relating to a June 8, 1984, public meeting held in Bethesda, Maryland, concerning the Waterford III Steam Electric Station, including all drafts of the handout used at the June 8, 1984, meeting. These records pertain to the Waterford III Steam Electric Station.

We defined the request to include any and all agency records and information, including but not limited to notes, letters, files, memoranda, drafts, minutes, diaries, logs, calendars, tapes, transcripts, summaries, interview reports, procedures, instructions, engineering analyses, drawings, graphs, charts, maps, photographs, agreements, handwritten notes, studies, data sheets, notebooks, books, telephone messages, computations, voice recordings, any other data compilations, interim and/or final reports, status reports, generated or obtained by NRC personnel in connection with investigations, inspections and/or reports on the above matters.

To date, we have received no response to our request, although it has been well over a month since our initial request. We have construed your failure to answer as a constructive denial of the request.

As provided under the FOIA, we expect to receive a response to this administrative appeal within twenty (20) working days.

Yours truly,

Billie Garde
