License No. 34-25957-01
Docket No. 030-30736

Dear Mr. Jucius:

This refers to the routine safety inspection conducted by Mr. M. A. Kunowski of this office on December 7-8, 1992, of activities authorized by NRC Byproduct Material License No. 34-25957-01, and to the discussion of our findings with you and Mr. A. C. Lucas at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

During this inspection, certain of your activities were found to be in violation of NRC requirements, as described in the enclosed Notice. The inspection showed that actions had been taken to correct and prevent recurrence for violations no. 1, 2.b., and 3. Consequently, no reply to these three violations is required and we have no further questions regarding these matters at this time. A written response is required for violation no. 2.a.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosure, and your response to this letter will be placed in the NRC Public Document Room.

The response directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.
