Subject: Interim 10CFR50.55(e) Report: CRDM Shroud

Dear Sir:

We previously reported in Reference (b) a potential 10CFR50.55(e) item to Region I regarding the seismic qualification of the Control Rod Drive Mechanism (CRDM) shroud. We provided Interim Reports on this item in References (c), (d) and (e).

We are continuing to work with Westinghouse to seismically qualify the CRDM shroud for its intended use as an intervening structural supporting element for the Class I Reactor Vessel Level Instrumentation System Piping and Class I Reactor Vessel Head Vent Piping.
