Discussion Between Agencies and Union Carbide Corporation

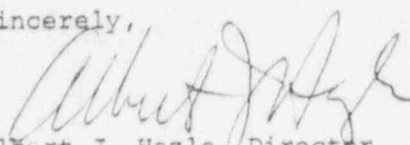

0830-1030	1, 2, and 3 above
1030-1100	Break
1100-1200	4. Agency requirements for interim and longer-term licenses (and permits)
1200-1300	Lunch
1300-1400	5. Further definition of parameters in off-site radiation dose evaluation

Alan Pearson and/or Steve Spann of the Dam Safety Unit, Colorado Department of Natural Resources, and W. Rahe Junge of the Colorado Geological Survey, and Ken Waesche, Department hazardous wastes control geologist, would be primary State discussants Thursday and Friday mornings. Representatives of the U.S. Bureau of Land Management would be present both Thursday afternoon and Friday morning, particularly to address BLM requirements concerning the longer-term operations alternatives.

This Division particularly desires the discussion with Union Carbide and NRC of off-site radiation dose evaluations, which is scheduled Friday afternoon.

If you have any questions concerning these key meetings May 28 - 29 or the proposed agendas, please contact Ken Weaver of this Division. Thanks in advance for your cooperation.

Sincerely,

Albert J. Hazle, Director
Radiation and Hazardous
Wastes Control Division
