Gray File

Dear Mr. Farrar:

SUBJECT: ZION NUCLEAR POWER STATION UNITS 1 AND 2 - RELIEF FROM
FIRST TEN-YEAR INSERVICE INSPECTION AND HYDROSTATIC
TESTING REQUIREMENTS

By letters dated November 13, 1984 and January 4, 1985, the Commonwealth Edison Company (CECo) submitted Revisions 1 and 3 to the Inservice Inspection Program for Zion Units 1 and 2 for the first ten-year interval. The revisions included requests for relief from certain hydrostatic testing requirements.

We have reviewed these submittals and concluded that Revisions 1 and 3 will not adversely impact the safety of Zion Units 1 and 2 and that the proposed alternate testing is acceptable. Detailed technical assessments are contained in the enclosed Safety Evaluation. Based on our conclusion, we hereby grant the relief.

Sincerely,

/s/SVarga

Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
