Dear Dr. Grace:

Pursuant to 10 CFR 50.54(p), please find attached five (5) copies of Revision 15 to the Oconee Nuclear Station Security Plan. Revision 15 reflects recent General Office and Station organizational changes, text clarification, minor editorial changes, protected area barrier exceptions, and the phased transition of some security components from the interim system to the final security system configuration. Revision 15 does not decrease the effectiveness of the Oconee Nuclear Station Security Plan.

For your information, Oconee Nuclear Station will establish an Industrial type Security Program for Keowee Hydro when the Standby Shutdown Facility (SSF) is operational. The program in a final configuration will utilize normal facility structures, one industrial type security person and access control.

This material is applicable to security provisions at Oconee Nuclear Station; therefore, Duke requests that this material be withheld from public disclosure pursuant to 10 CFR 73.21.

Very truly yours,

Hal B. Tucker
