Re: Criteria for Extraordinary
Nuclear Occurrence, 50 F.R.
13978-85, April 9, 1985.

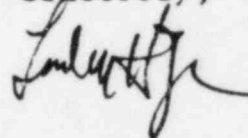

Gentlemen:

On April 9, 1985, the Commission published for public comment a proposal to revise its criteria for defining an "extraordinary nuclear occurrence". The Federal Register notice specified that comments should be filed on or before August 7, 1985.

The Forum's Insurance and Indemnity Committee will be discussing this proposal at its regularly scheduled meeting on August 20, 1985, and intends to file its comments shortly thereafter. We respectfully request an extension of time until Thursday, August 29, within which to file our comments. We do not believe that this brief extension will adversely affect the Commission's current schedule for this rulemaking.

Thank you for your consideration of our request.

Sincerely,

LH:mm
