P.O. Box 1449
Glenrock, WY 82637

Dear Mr. Roberts:

In response to your letter dated March 28, 1985, URFO staff have reviewed the Final Decommissioning Report for the Nubeth R&D ISL project. A closeout inspection conducted on November 26, 1984, indicated that additional cleanup efforts were warranted in the pond area. Based on staff review of the information submitted December 27, 1984, we have concluded that no additional cleanup work is necessary, and that the site has been decommissioned in accordance with SUA-1331 and applicable regulatory requirements.

Therefore, pursuant to Title 10 CFR Part 40, and in accordance with your request, Source Material License SUA-1331 is hereby terminated, effective immediately.

FOR THE NUCLEAR REGULATORY COMMISSION
