Re: License No. 29-09435-01

Gentlemen:

In response to a Notice of Violation dated January 31, 1985 regarding the above referenced license, we have had further discussions with Mrs. Marlene J. Taylor of your office as suggested in the Notice.

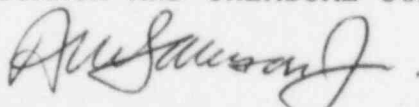

At her suggestions, our Marvin Weingast has made arrangements with Montclair State College for the return of the gas chromatograph to us since their license apparently does not cover this type of equipment. Also, Mr. Weingast has made arrangements with the equipment manufacturer, Varian Instruments, Walnut Creek, California, for them to accept the instrument for disposal.

Accordingly, pursuant to Mrs. Taylor's suggestion, we shall send the instrument to Varian Instruments for disposal as soon as possible, making sure to follow all applicable regulations governing the packaging, labelling and shipping of such equipment, and shall notify you when this has been completed.

Unless we hear from you to the contrary, we shall assume that this satisfies our obligations in this matter. We appreciate the assistance given to us by Mrs. Taylor.

Very truly yours,

NATIONAL STARCH AND CHEMICAL CORPORATION

Walnut Creek, CA 94598

Dear Sir:

As per our conversation I am enclosing a Tritium ECD source Model 02-104 (#1928) for disposal. The enclosed package is marked ⁰radioactive in accordance with 49CFR.422.

Thank you for your help,

M. Weingast
