Dear Mr. Hardzog,

Thank you for the materials you sent in response to my FOIA request number 92-75. However there appears to be significant information missing. Specifically we would like to receive a copy of the minutes of the December 17, 1991 meeting with Nuclear Metals, Inc., and information and documents detailing the discussions held on the current site conditions, holding basin resource recovery program, holding basin removal and issues for resource recovery. We do not wish to know any of Nuclear Metals' process trade secrets. We are solely interested and concerned with the health hazards that the Company's operations and the contaminated site pose to its neighbors.

Thank you for your kind attention to this request.

Sincerely yours,

Sumin Tchen
