Eli Lilly and Company
ATTN: Martha Bhatti, Ph.D.
Corporate Radiation Safety Officer
307 East McCarty Street
Indianapolis, IN 46285

30-04330

Gentlemen:

This refers to the special safety inspection conducted by Messrs. W. J. Slawinski and J. S. Mueller of this office on July 12, 1985, of activities at your Clinton, Indiana facility authorized by NRC Byproduct Material License No. 13-01133-02 and to the discussion of our findings with you, Jim Erdman, M. Beamon and other Eli Lilly representatives at the conclusion of the site inspection and to the telephone conversation with you on July 17, 1985.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix. A written response is required.

The responses directed by this letter (and the accompanying Notice) are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

3508010344 850729
