Gentlemen:

This letter will serve as a confirmation of, and a follow-up to, telephone conversations held with your Mr. Mark McBurnett on April 30, 1985, and with Mr. McBurnett and four members of your security department on May 1, 1985.

The purpose of the telephone conversations was to express our review comments relative to your March 1, 1985, submittal titled, "South Texas Project Electric Generating Station-Units 1 and 2-Docket Nos. STN50-498, STN50-499,-Interim Security Plan for Fuel Storage."

In essence, our review of the aforementioned Plan concluded that it was not responsive to the Nuclear Regulatory Commission's Regulatory Guide 5.59, Revision 1, February 1983, in either its content or format.

The referenced telephone conversations were beneficial in that Mr. McBurnett felt that a revised edition of your "Interim Security Plan for Fuel Storage" could be submitted within 45 working days after the receipt of this letter.

If you should have any questions or need assistance, please feel free to call Ray Jackson of my staff on (301) 427-4757.

Sincerely,

8508010355 850509
