Ivan Smith
Chairman, Atomic Safety and Licensing Board
TMI Unit #1
US Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr Smith:

The Three Mile Island accident was a potent reminder that the potential for human error in the operation of nuclear facilities will always render us subject to ^{the} great harm that a severe accident could bring.

We must ask ourselves, "Can we afford to suffer the consequences of even one major nuclear accident?" I believe the answer is a categorical "No," and I urge you to block the reopening of TMI Unit #1.

Very truly yours
Michael J. Kosnett
