Report; Gould, Inc., Multi-Pole Circuit Breakers,"
J. DeVincentis to R. W. Starostecki

Subject: Final 10CFR50.55(e) Report; Gould, Inc., Multi-Pole Circuit
Breakers

Dear Sir:

In Reference (c), we filed an interim 10CFR50.55(e) report regarding a deficiency associated with Gould, Inc., multi-pole circuit breakers. This deficiency involved the potential failure of all poles of the circuit breaker to close.

As stated in Reference (c), Gould informed PSNH that they would replace any circuit breakers with the suspect date code or missing date codes with current production circuit breakers. Suspect circuit breakers which have a safety-related application have now been replaced. Those which had nonsafety applications will be replaced within six months.

Since the safety-related breakers have been replaced, this is considered out final report on this item.

Very truly yours,

W. P. Johnson
Vice President
