RE: SOURCE MATERIAL LICENSE - SUA-1326,
DOCKET NO. 40-8674

Gentlemen:

Pursuant to my recent telephone conversation with Mr. Paul Hildenbrand of your staff, we are submitting herewith a revised organizational chart which supersedes the one submitted on March 22, 1985. The purpose for this revision is to show the "dotted line" reporting responsibility of the Environmental and Radiological Health Supervisor (ERHS) to the Mill Superintendent for matters involving radiation safety.

Because the Blanding Ore Buying Station is currently being decommissioned, there is no one in the position of Mill Superintendent at the facility. Therefore, the ERHS has direct access to the General Manager and the on-site Supervisor in charge during the decommissioning.

Sincerely,

Fred W. Gerdeman

Fred W. Gerdeman
Governmental Affairs Supervisor
