FREEDOM OF INFORMATION
ACT REQUEST

FOIA-81-141
Rec'd 4-13-81

Re: Freedom of Information Act Request

Dear Mr. Felton:

Pursuant to the Freedom of Information Act (5 U.S.C. §552) and NRC Regulations (10 C.F.R. Part 9), Debevoise & Liberman requests copies of all documents prepared by the NRC, its Staff and Consultants relative to the following:

1. The organizational structure and relationship of all NRC offices, divisions, branches, task groups, working groups and/or any ad hoc staff units from January 1, 1980 until the present which have worked on the preparation and implementation of the Commission's May 23, 1980 Memorandum and Order (CLI-80-21) concerning the environmental qualification of Class IE equipment.

2. Any contractors, national laboratories, independent testing laboratories and/or other consultants contracted by the NRC in connection with preparation and implementation of the Commission's May 23, 1980 Memorandum and Order (CLI-80-21) concerning the environmental qualification of Class IE equipment, including all contracting documents, specifications, requests for proposal, scope of specification and all letters and/or other documents modifying same.

3. Confirmatory research and/or testing of the performance of safety related electrical equipment in harsh and/or mild environment, including all SECY documents, requests for proposal, contracting documents, scope of specifications and all letters and/or other documents modifying same.

4. Confirmatory or other testing by Sandia Laboratories referenced in Harold Denton's March 19, 1980 letter to Carl Walski, including but not limited to contract specifications for such testing, staff review and analysis of such testing and NRC actions taken as a result of such testing.

5. Memoranda, office letters, standards, criteria, procedures, guidelines and/or commitment letters concerning when, how, to what degree or depth, and for what activities the Staff should perform cost-benefit and/or value-impact studies.

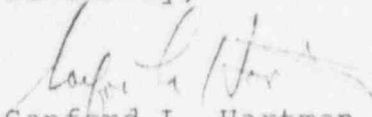

6. Memoranda, office letters, standards, criteria, procedures, guidelines and/or correspondence which set forth or in any manner define NRC procedure and practice regarding the imposition by NRC of backfitting requirements pursuant to 10 C.F.R. §50.109.

7. Any memoranda, guidance documents and/or any other documents prepared by or submitted to the Office on Nuclear Reactor Regulation concerning the need to prepare an Environmental Impact Statement, pursuant to Section 102(2)(c) of the National Environmental Policy Act, if multiple shutdown of power reactors result from the issuance of any NRC rule, order and/or Commission memorandum and order including but not limited to documents prepared by the Office of the Executive Legal Director ("OELD") (See Memorandum to Harold R. Denton from Richard H. Vollmenr, dated July 18, 1980, at page 2).

8. Any OELD advice concerning whether an Environmental Impact Statement must be prepared pursuant to Section 102(2)(c) of the National Environmental Policy Act on the Commission's May 23, 1980 Memorandum and Order (CLI-80-21) concerning the Environmental Qualification of Class IE equipment.

We would appreciate your prompt response to this request within the ten working day period afforded by 10 C.F.R. Part 9.

Sincerely,

Sanford L. Hartman
