Address: South Fork Summer
Home Sites (Lot #4)
Lowman, Idaho 83637

Wallace Ezra Plant
3304 E. Ustick
Caldwell, Idaho 83605

Dear Mr. Plant:

Under the Uranium Mill Tailings Radiation Control Act of 1978 (Public Law 95-604), the U.S. Department of Energy (DOE), with ten percent funding provided by the state, has completed remedial action at the property referenced above. In addition, supplemental standards were applied to certain areas of the property. Review of the available data indicates your property has been cleared of residual radioactive contamination to the extent required by the Environmental Protection Agency (EPA) Standards (40 CFR Part 192). Therefore, the DOE certifies your property is in compliance with the EPA Standards.

The current status of your property will be recorded by the state on the appropriate property records, per requirements of Public Law 95-604. Records of Uranium Mill Tailings Remedial Action vicinity properties are archived with both the state and the DOE.

Should you have any questions regarding the project or your property, please write to me at the above address or contact Gaeton Falance of my staff at (505) 846-1206 or the Idaho Division of Environment (208) 334-5879. Your cooperation in the successful accomplishment of this work has been greatly appreciated.

Sincerely,

Albert R. Chernoff
Project Manager

memorandum

Albuquerque Field Office

DATE: NOV 12 1992

REPLY TO: UMT:GF
ATTN OF:SUBJECT: Certification of Vicinity Property No. LO-020S, located at
South Fork Summer Home Sites (Lot #4), Lowman, Idaho 83637
From the Uranium Mill Tailings Remedial Action Program

TO: Official Location Folder

In accordance with provisions of the Uranium Mill Tailings Radiation Control Act of 1978 (PL 95-604), the subject property has been evaluated against the Environmental Protection Agency (EPA) Standards for Remedial Action at Inactive Uranium Processing sites (40 CFR Part 192) after the completion of remedial action. The Completion Report was prepared by MK-Ferguson Company, the U.S. Department of Energy (DOE) Remedial Action Contractor.

The DOE has reviewed the Completion Report and associated documentation which indicate the property has been cleared of residual radioactive contamination and that the application of supplemental standards has been appropriately documented; therefore, the DOE certifies the property is in compliance with the EPA Standards.
