

July 26, 1985.

Dear Friends of the Pump:-

Opponents of the Ft. Pleasant pump do not realize that they are responsible for our increased rates in electricity, and lack of water for home use. They are responsible for the misappropriated funds -- for the loss of the use of the funds which have been saved for the completion of our pumping station

More than this -- they are seeking to change our form of government. We ought to pray every day God will help us.
