

DOW CHEMICAL U.S.A.

1038

MIDLAND, MICHIGAN 48640

April 13, 1972

Mr. Nathan Bassin
Materials Branch
Division of Materials Licensing
United States Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Bassin:

This is in reply to your letter of March 22, 1972, concerning our application for amendment of License Number 21-00265-04.

Operating and emergency procedures have been revised to include all information specified in Section 34.32, 10CFR Part 34. All items on the licensing guide check-list which are pertinent to our source have been included.

Each radiographer will be issued copies of the procedures which will be discussed in detail at a special meeting of all radiographic personnel. Copies of the procedures will be fastened into the log book and placed in the radiographers' vehicle to assure ready accessibility.

Sincerely,

L. G. Silverstein
