Gentlemen:

Enclosed is Amendment No. 14 to License No. 07-01579-19. You should review this amendment for correctness and to assure that any changes in procedures required by the conditions are implemented.

We would like to call your attention to the following point with respect to this amendment.

We consider a quarterly frequency for Radiation Safety Committee meetings as a minimum. This meeting should involve review of personnel exposure records and requires frequent meetings to assure continued safe radiological protection practices. We therefore will not authorize a change to a six month frequency.

We wish you continued success with your licensed program.

Sincerely,

Original Signed By:  
John E. Glenn
