Division of Materials Licensing  
U.S. Atomic Energy Commission  
Washington, D. C. 20545

Gentlemen:

I should like to inquire about the status of an application for by-product material license, Form AEC 313, which was submitted on August 8, 1968. The application is from The Dow Chemical Company to cover activities of the Dow Industrial Service Department in decontamination work on nuclear power plants or other nuclear installations at various plant locations.

Very truly yours,

*William H. Beamer*
