License No. 20-00289-10  
Telephone Conversation of 18 February 1992

Gentlemen:

The New England Deaconess Hospital Corporation had requested to amend our NRC License 20-00289-10 (CATEGORY 3E), on 16 October 1991.

We will be purchasing another Gammacell 1000 Elite, Model A, from Nordion International Incorporated in Kanata, Ontario, Canada. This unit is a self-contained irradiator which will be used in Room 522 SOUTH at 21-27 Burlington Avenue, Boston, Massachusetts. This unit will contain no more than 800 curie of Caesium 137. This unit will be used to irradiate biological samples and small animals.

Since this is our third self-contained irradiator, all existing conditions specified in our License 20-00289-10 will also be applicable to this unit.

If you need additional information, please call me at 617-732-8509.

Thank you.

Sincerely,

Philip Cobb  
Radiation Safety Officer
