SAFEGUARDS INFORMATION REMOVED

Duke Power Company
ATTN: Mr. H. B. Tucker, Vice President
Nuclear Production Department
422 South Church Street
Charlotte, North Carolina 28242

Gentlemen:

SUBJECT: DOCKET NOS.: 50-369 AND 50-370

This acknowledges the receipt of your letter of May 17, 1985, which transmitted Revision 22 to the McGuire Nuclear Station Physical Security Plan.

Our review of the changes has found portions of the changes to be consistent with the provisions of 10 CFR 54(p). Other portions are not consistent with the provisions of 10 CFR 50.54(p) as delineated in the enclosure to this letter. To preclude a violation of regulatory requirements, you must not continue to implement those changes deemed inconsistent. Please revert to the commitments in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provisions of 10 CFR 50.90 for amendment to your license.

These inconsistencies were discussed in a teleconference on July 23, 1985, between Ms. O. Masnyk of Region II and Messrs. R. Cross and J. Davis of your staff.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Roger D. Walker, Director
Division of Reactor Projects
