

LOWRY NO. 13-100

AMENDMENT TO HYPRODUCT, SOURCE,
AND SPECIAL NUCLEAR MATERIAL LICENSE

LICENSE NO. 13-100

AMENDMENT NO. 10

The Atomic Energy Commission having found that:

- A. The licensee's equipment, facilities, and procedures are adequate to protect health and minimize danger to life or property.
- B. The licensee is qualified by training and experience to conduct the proposed land burial operation in accordance with the Commission's regulations set forth in Title 10, Chapter 1, Code of Federal Regulations, and in such manner as to protect health and minimize danger to life and property.
- C. The application for license amendment dated November 3, 1967, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations, and is for a purpose authorized by that Act.

Hyproduct, Source, and Special Nuclear Material License No. 13-10042-1 is amended to add the following condition:

21. The licensee is hereby authorized to receive and bury at its facility located in Bureau County, Illinois, one steel bottle containing 50 curies of hydrogen 3 (tritium) gas as specified in the application for license amendment dated November 3, 1967.

DOCKET NO. 27-39

LICENSE NO. 13-10042-1

AMENDMENT NO. 10

In accordance with application for license amendment received March 5, 1968,
License No. 13-10042-1 is amended as follows:

License No. 13-10042-1 is transferred from California Nuclear, Inc. to Nuclear Engineering Company, Inc. provided, however, that this transfer shall not be effective until notice, in writing, signed by an officer of California Nuclear, Inc. and an officer of Nuclear Engineering Company, Inc., or counsel therefor, has been filed by deposit in the mail addressed to the Director, Division of Materials Licensing, U. S. Atomic Energy Commission, Washington, D. C., 20545, stating that:

- (1) all assets of California Nuclear, Inc. have been transferred to Nuclear Engineering Company, Inc., and
- (2) Nuclear Engineering Company, Inc. has assumed control of and full responsibility for all activities conducted under the license.

Upon such notification, all references in the license to "California Nuclear, Inc." shall read "Nuclear Engineering Company, Inc." All other conditions and limitations in the license remain the same.

WASHINGTON, D.C. 20545

BYPRODUCT, SOURCE, AND SPECIAL NUCLEAR MATERIAL LICENSE

NUCLEAR ENGINEERING COMPANY, INC.

License No. 13-10042-01
Amendment No. 11

In accordance with application dated November 4, 1976, License No. 13-10042-01 is amended as follows:

The following conditions shall apply to operations conducted at the licensee's Bureau County site and supersede all other conditions in this license which contain references to the Bureau County site.

1. The licensee shall not possess at any one time more than:
 - A. 50,000 curies of byproduct material.
 - B. 18,200 kilograms of source material.
 - C. Plutonium in concentrations greater than 10 nanocuries per gram.
 - D. 5,000 grams of special nuclear material in accordance with the following:
 - a. No single package shall contain more than 100 grams of uranium 235 or 60 grams of uranium 233 or any combination thereof such that the sum of the ratios of the quantity of each special nuclear material to the quantities specified herein does not exceed unity. Unity shall be determined by the following formula:
$$\frac{\text{grams contained uranium 235}}{100} + \frac{\text{grams contained uranium 233}}{60} \leq 1$$
 - b. No single package shall contain more than 15 grams of any combined uranium 235 and uranium 233 per cubic foot of total volume.
2. Byproduct, source, and special nuclear material may be disposed of by burial only in Trenches 14 and 14A, as identified in application dated November 4, 1976, at a site located in the Southeast corner of Section 27, Township 13 North Range 6 East of the Fourth Principal Meridian, Bureau County, Illinois.

119

1977. Hoffman-La Roche of Nutley, N.J., advised DEA that the export demand previously placed on them by Canada has been relieved by cancellation of the order and therefore, they (Hoffman-La Roche) no longer need the increased quota which was justified to DEA and caused DEA to publish the proposed increase of quota as cited above.

Therefore, under the authority vested in the Attorney General by section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826), and delegated to the Administrator of the Drug Enforcement Administration by § 3.100 of Title 28 of the Code of Federal Regulations, the Administrator of the Drug Enforcement Administration hereby withdraws the proposed change to the previously finalized 1977 aggregate production quota for Mixed Alkaloids of Opium.

This order is effective December 5, 1977.

Dated: November 22, 1977.

PETER B. BENNETT,

Administrator Drug
Enforcement Administration.

NATIONAL ADVISORY COUNCIL ON THE
EDUCATION OF DISADVANTAGED CHILDREN
Cancellation of Meeting

Notice is hereby given, pursuant to Pub. L. 92-435, that the full Council meeting of the National Advisory Council on the Education of Disadvantaged Children scheduled for December 10, 1977 in Tucson, Ariz. is hereby cancelled.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 1411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

Signed at Washington, D.C., on November 22, 1977.

ROBERTA LOVEMORE,
Executive Director.

(F.R. Doc. 77-34773 Filed 12-2-77; 2:45 am)

NATIONAL EDUCATION POLICY AND
ARTS AND THE HUMANITIES

EDUCATION PROGRAMS PANEL ADVISORY
COMMITTEE

Meeting

November 22, 1977.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, as amended), notice is hereby given that a meeting of the Education Programs Panel will be held at 305 15th Street N.W., Washington, D.C. 20506, in room 1905, from 9:30 a.m. to 3:30 p.m. on January 3, 1978.

The purpose of the meeting is to review cultural institutions applications submitted to the National Endowment for the Humanities for projects beginning after April 1, 1978.

Because the proposed meeting will consider financial information and disclose information of a personal nature the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Acting Chairman's delegation of authority to these advisory committee meetings, dated August 2, 1977, I have determined that the meeting would fall within exemptions (4) and (5) of 5 U.S.C. 552(b)(4) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Stephen J. McCleary, 305 15th Street N.W., Washington, D.C. 20506, or call 302-724-0367.

STEPHEN J. MCCLEARY,

Advisory Committee
Management Officer.

NUCLEAR REGULATORY
COMMISSION

(Docket No. 77-29)

NUCLEAR ENGINEERING CO., INC.

Availability of Applicant's Environmental Permit Consideration of Proposed Expansion of the Sheffield, Ill. Low-Level Waste Burial Site and Community for Housing

The Nuclear Regulatory Commission (the Commission) has previously given notice (41 FR 6133, February 3, 1977), that Nuclear Engineering Co., Inc. (NECO), 9300 Shelbyville Road, Suite 115, P.O. Box 1218, Louisville, Ky. 40217, has filed an application for renewal and amendment of license No. 13-1704. The application requested increasing the size of NECO's exha-

ustion to 17743 acres.

The applicant has also filed a petition to the National Environmental Policy Act of 1969 and the regulation of the Commission in 10 CFR Part 51, an environmental report. The report which discusses environmental considerations related to current operation and proposed operation of the expanded burial facility is being made available at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., at the Illinois Public Library, 304 17th Street, Suite 115, 61255, and at the State Courthouse, Bureau of the Sheriff, 100 Statehouse, Springfield, Ill. 62764.

After the environmental report has been analyzed, a draft environmental statement will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the Federal Register a summary notice of availability of the draft statement, requesting comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that any comments of Federal agencies on State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the regulatory staff will prepare a final environmental statement, the availability of which will be published in the Federal Register.

The Commission will consider the substance of an Amendment to License 13-1704-01 to renew the license and to authorize the applicant to increase the size of their existing burial facility upon: (1) The completion of a final site safety evaluation on the application by the Commission's staff; (2) the completion of the environmental review required by the Commission regulations in 10 CFR Part 51; (3) receipt of notification that the State of Illinois or the Federal Government has accepted ownership of additional acres intended for expansion to meet the requirements of 10 CFR Part 5 and (4) a finding by the Commission that the application for the facility complies, as amended, completely with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Chapter 1.

Pursuant to 10 CFR 10.105, on January 1, 1978, the licensee may file a petition for a hearing with respect to the substance of the license renewal amendment. Any action which may be affected by this petition may file a petition for a hearing. Requests for a hearing and motions for leave to enter a petition filed in accordance with the Commission's

...the Atomic Safety and Licensing Board, the petition to the Commission or by the Commission of the Atomic Safety and Licensing Board, will rule on the request and the petition and the Secretary of the Atomic Safety and Licensing Board will issue a notice of hearing at an appropriate time.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR § 2.714. As required in 10 CFR § 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, or may be delivered to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., by January 5, 1979. A copy of the petition and of request should also be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and to James N. Neel, President and Chief Executive Officer of NECO, the applicant.

A petition for leave to intervene which is not timely filed will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition determines that the petitioner has made a substantial showing of need and for failure to file on time and after considering those factors specified in 10 CFR § 2.714(a) (1)-(3) and 2.714(b).

The following documents and reports, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Marine Corps Library, 391 17th Street, N.W., Washington, D.C. 20315. As they become available, the following documents may be inspected at the above locations: (1) The safety evaluation report to be prepared by the Commission staff; (2) the draft environmental statement; (3) the final environmental statement; (4) subsequent Commission correspondence and supplemental information provided by NECO; and (5) amendments to the Commission's license.

Copies of the final environmental statement, when available, may be purchased at current rates, from the National Technical Information Service, Springfield, Va. 22161.

For the Nuclear Regulatory Commission.

Dated at Silver Spring, Md., this 23d day of November 1977.

MICHAEL J. BELL,
Chief, Low-Level Waste Branch,
Division of Fuel Cycle and Material Safety.

REGULATORY GUIDE

Notice of Issuance and Availability

The Nuclear Regulatory Commission has issued a new guide in its regulatory guide series. This series has been developed to describe and make available to the public methods acceptable to the NRC staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applicants for permits and licenses.

Regulatory Guide 1.136, "Material for Concrete Containments," is the first in a series of guides that will set forth the NRC staff position on the acceptability of the ASME/ACI "Code for Concrete Reactor Vessels and Containments" for licensing purposes. This guide endorses the portion of the code that covers material for concrete containments.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 1.136

Comments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch.

Regulatory guides are available for inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. Requests for single copies or entire guides (which may be reproduced) or for placement on the automatic distribution list for single copies of future guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Document Control. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(U.S.C. 552(a))

Dated at Rockville, Md., this 23rd day of November 1977.

For the Nuclear Regulatory Commission.

ROBERT E. MINOCOS,
Director, Office of
Standards Development.

[7590-01]

(Docket No. 50-330)

VIRGINIA ELECTRIC & POWER CO., NORTH ANNA POWER STATION, UNIT NO. 1

Notice of Issuance of a Facility Operating License

Notice is hereby given that pursuant to the initial decision of the Atomic Safety and Licensing Board, dated November 15, 1977, the Nuclear Regulatory Commission (the Commission) has issued facility operating license No. NPF-4 to the Virginia Electric & Power Co., authorizing the loading of fuel and maintaining the unit in an operational mode 5 condition (cold shutdown condition). The North Anna power station, unit No. 1 is a pressurized water nuclear reactor located at the licensee's site near Mineral in Louisa County, VA.

The initial decision is subject to review by an Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the initial decision may be reviewed by the Commission.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations in 10 CFR Chapter I, which are set forth in the final decision.

(Docket No. 50-321)

FLORIDA POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 18 to Facility Operating License No. DPR-57, issued to Florida Power & Light Co. (the licensee), which revised the Technical Specifications for operation of the St. Lucie Plant Unit No. 1 (the facility) located in St. Lucie County, Fla. The amendment is effective as of its date of issuance.

The amendment revised the Technical Specifications to: (a) modify the Offsite Organizational Structure; (b) reduce from 3.3 seconds to 3.0 seconds the Control Element Assembly drop time; (c) modify the transition limit to extend the transition period from 15 minutes to one hour without either a reactor coolant pump or shutdown cooling pump running; and (d) delete conditions F and G of Enclosure 1 to the license since these items relating to control of water flow in the ultimate heat sink and installation of erosion protection for part of the discharge canal have been satisfactorily completed.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated June 30, 1977, as supplemented by letter dated August 4, July 12, September 6 and 30, and October 26, 1977; (2) Amendment No. 18 to License No. DPR-57, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the U.S. Marine Corps College Library, 3429 Virginia Avenue, Ft. Pierce, Fla. 33550. A single copy of

Amendment No. 18 to License No. DPR-57 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Anne Arundel County Public Library, Parker Street, Baxley, Ga. 31513. A copy of Amendment No. 18 and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md. this 21th day of December, 1977.

For the Nuclear Regulatory Commission.

DON K. DAVIS,

Acting Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.

(FR Doc. 73-934 Filed 1-12-78; 3:45 am)

[7590-01]

(Docket No. 50-321)

GEORGIA POWER CO., ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 48 to Facility Operating License No. DPR-57 issued to Georgia Power Co., Oglethorpe Electric Membership Corp., Municipal Electric Association of Georgia and City of Dalton, Ga., which revised Technical Specifications for operation of the Edwin I. Hall Nuclear Plant, Unit No. 1, located in Appling County, Ga. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications to convert the primary source of power to the Low Pressure Coolant Injection (LPCI) system injection valve operators from diesel generators 1A, 1C, or 1B to independent sets of 250 volt DC-500 volt AC inverters which are powered by the station batteries.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for Amendment dated February 2, 1977, as supplemented by letters dated July 11,

Amendment No. 48 to License No. DPR-57 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. and at the Anne Arundel County Public Library, Parker Street, Baxley, Ga. 31513. A copy of Amendment No. 48 and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md. this 4th day of January 1978.

(Docket No. 77-02)

NUCLEAR ENGINEERING CO., INC. (SHEFFIELD, CT.)
LL, LOW-LEVEL RADIOACTIVE WASTE DISPOSAL SITE

Hearing on Application for Renewal and Amendment of Facility Operating License

On December 5, 1977, the Staff of the Nuclear Regulatory Commission published in the Federal Register (42 FR 2449) a notice that the Commission had received an application for renewal and amendment of License No. 134-1, issued to the applicant Nuclear Engineering Co., Inc. (NECO). The purpose of the amendment is to expand the low-level radioactive waste burial site from 50,000 sq. ft. to 45 acres to 100 acres.

The notice in the Federal Register also provided that the License (NECO) may, pursuant to 10 CFR

2.103, file a request for a hearing with respect to the license renewal and amendment providing site expansion. It further provided that any person whose interest may be affected by this proceeding may file a petition for leave to intervene pursuant to 10 CFR 2.714.

Thereafter a number of petitions for leave to intervene were filed with the Commission and an Atomic Safety and Licensing Board was designated to rule on any such petition for leave to intervene and request for a hearing.

On March 1, 1978, that Board ruled that the petitions to intervene and request for hearing by the following were granted:

1. State of Illinois & County of Bureau, Illinois & Fifteen (15) individuals, namely:

Edith Carlson
Ervin Flint
Stanley W. Gungl
Edward J. Gostman, M.D.
W. T. Good
Sam Hovett
William J. Holsen
Harley Lorenson
Wilma Lorenson
David E. Moon
William A. Rosenow
The Reverend Frank Rottler
Harold Schuster
Ralph Stahler
Sherman E. Stelson and

4. Associated Citizens for the Protection of the Environment

Thereafter an Atomic Safety and Licensing Board was designated to preside over the hearing to be conducted as a result of the granting of the petitions to intervene. The Board will consist of Dr. Linda Little, Dr. Forrest Remick, members, and Andrew C. Goodhope, chairman.

Notice is hereby given that a hearing will be held before the Atomic Safety and Licensing Board upon the licensee's application for renewal and amendment to its license to operate a low-level radioactive waste burial site near Sheffield, CT. This hearing will be held in the vicinity of Sheffield, CT.

The Board will conduct a special prehearing conference or conferences at a date and place to be specified in a later notice to consider pertinent matters in accordance with the Commission's "Rules of Practice". The parties to this proceeding, including the intervenors, or their respective counsel, are directed to appear at such prehearing conferences. At the prehearing conference the Board will determine the specific issues to be considered at the evidentiary hearing and establish a

One petition to intervene by an individual was denied because the petitioner had failed to show the requisite interest in the proceeding. This individual was given 10 days within which to make a proper showing of interest. The petitioner to intervene was also denied for failure to show the requisite interest or state any contentions.

schedule for further actions in the proceeding. Notices as to the date and place of the prehearing conference will be published in the Federal Register. The date and place of the evidentiary hearing will be set by the Board at or after the prehearing conference and will also be published in the Federal Register.

The public is invited to attend the prehearing conference but members of the public may not participate in the conference. An opportunity for any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition to leave to intervene will be provided at the hearing. Any person may request permission to make a limited appearance pursuant to provisions of 10 CFR 2.715 of the Commission's "Rules of Practice". Limited appearances will be permitted at the time of the hearing in the discretion of the Board and will be subject to the conditions set forth in a subsequent Notice of Hearing. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. A person permitted to make a limited appearance does not become a party, but may state his or her position and raise questions which he or she would like to have answered to the extent that the questions are within the scope of the hearing as specified above. A member of the public does not have the right to participate unless he or she has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's "Rules of Practice" must be filed by the parties to this proceeding (other than the Regulatory Staff) not later than March 30, 1978.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Public Hearing and Service Branch, or may be delivered to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C.

Pending further order of the Hearing Board designated for this proceeding, parties are required to file in accordance with the provisions of 10 CFR 2.705 of the Commission's "Rules of Practice" an original and two unperfected copies of each such paper with the Commission.

For further details the documents filed in this proceeding may be viewed for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Moline Public Library, 504, 17th

Forest, Morris, Ill., and the State
Chaplain, Bureau of the Bureau,
Springfield, Ill.

Dated at Bethesda, Md., this 3rd day
of March 1978.

It is so ordered.

For the Atomic Safety and Licensing
Board.

ANDREW C. GOODHOPE,
Chairman.

(Docket No. 50-344)

PORTLAND GENERAL ELECTRIC CO., THE CITY
OF EUGENE, OREGON, AND PACIFIC POWER
& LIGHT CO.

Issuance of Amendment to Facility Operating
License

The U.S. Nuclear Regulatory Com-
mission (the Commission) has issued
Amendment No. 19 to Facility Operat-
ing License No. NPP-1 issued to Port-
land General Electric Co., the City of
Eugene, Oreg., and Pacific Power and
Light Co., which revised Technical
Specifications for operation of the
Trojan Nuclear Plant (the facility), lo-
cated in Columbia County, Oreg. The
amendment is effective as of its date
of issuance.

This amendment changes the re-
quirements for performance and test-
ing of HEPA and charcoal filters in
safety-related ventilation systems.

The application for the amendment
complies with the standards and re-
quirements of the Atomic Energy Act
of 1954, as amended (the Act), and the
Commission's rules and regulations.
The Commission has made appropriate
findings as required by the Act and
the Commission's rules and regula-
tions in 10 CFR Chapter I, which are
set forth in the license amendment.
Prior public notice of this amendment
was not required since the amendment
does not involve a significant hazards
consideration.

The Commission has determined
that the issuance of this amendment
will not result in any significant envi-
ronmental impact and that pursuant
to 10 CFR 51.52(d)(4) an environmental
impact statement or narrative descrip-
tion and environmental impact as-
essment need not be prepared in con-
nection with issuance of this amend-
ment.

For further details with respect to
this action, see (1) the application for
amendment and (2) April 4, 1978, 43
Federal Register 19,000. Amendment
No. 19 to License No. NPP-1. The Com-
mission has also issued a Safety Evalua-
tion. All of these items are available for public inspec-
tion at the Commission's Public Docu-
ment Room, 1717 H Street, NW,
Washington, D.C. 20555 and at the Co-

lumbia County Courthouse, Law Li-
brary, Courtroom No. 3, Eugene,
Oreg. 97501. A copy of items (1) and
(2) may be obtained upon request ad-
dressed to the U.S. Nuclear Regula-
tory Commission, Washington, D.C.
20555, Attention: Director, Division of
Operating Reactors.

Dated at Bethesda, Md., this 25th
day of February 1978.

For the Nuclear Regulatory Commis-
sion.

A. SCHWIMMER,
Chief, Operating Reactors
Branch No. 1, Division of Op-
erating Reactors.

REVISION TO THE STANDARD REVIEW PLAN
(NUREG-75/087)

Issuance and Availability

As a continuation of the updating
program for the Standard Review Plan
(SRP) previously announced,
(FEDERAL REGISTER notice dated De-
cember 8, 1977), the Nuclear Regula-
tory Commission's (NRC's) Office of
Nuclear Reactor Regulation has pub-
lished Revision No. 1 to section No.
9.2.3 of the SRP for the NRC staff's
safety review of applications to build
and operate light-water-cooled nuclear
power reactors. The purpose of the
plan, which is composed of 224 sec-
tions, is to improve both the quality
and uniformity of the NRC staff's
review of applications to build new nu-
clear power plants, and to make infor-
mation about regulatory matters
widely available, including the im-
provement of communication and un-
derstanding of the staff review process
by interested members of the public
and the nuclear power industry. The
purpose of the updating program is to
revise sections of the SRP for which
changes in the review plan have been
developed since the original issuance
in September 1975 to reflect current
practice.

Copies of the Standard Review Plan
for the Review of Safety Analysis Re-
ports for Nuclear Power Plants, which
has been identified as NUREG-75/087,
are available from the National Tech-
nical Information Service, Springfield,
Va. 22161. The domestic price is
\$75.00, including first-year supple-
ments. Annual subscriptions for sup-
plements alone are \$30.00. Individual
sections are available at current prices.
The domestic price for Revision No. 1
to section No. 9.2.3 is \$10.00. Foreign
price information is available from
NTIS. A copy of the Standard Review
Plan including all revisions published
to date is available for public inspec-
tion at the NRC's Public Document
Room at 1717 H Street, NW, Wash-
ington, D.C. 20555 (U.S.C. 552(a)).

Dated at Bethesda, Md., this 25th day
of March 1978.

For the U.S. Nuclear Regulatory
Commission.

ROGER J. L. TAYLOR,
Director, Division of Nuclear
Safety Office of Nuclear Regulation.

(FTR Doc. 78-6297 Filed 3-9-78; 8:45 am)

[7590-01]

(Docket No. 50-395)

SOUTH CAROLINA ELECTRIC AND GAS CO., ET
AL (VIRGIL C. SUMNER NUCLEAR STATION,
UNIT 1)

Prehearing Conference

On February 14, 1978, the Atomic
Safety and Licensing Board published
in the FEDERAL REGISTER a notice of
hearing on the issuance of a facility
operating license for the Virgil C.
Sumner Nuclear Station, Unit 1, 43
FR 6347. The notice stated that a spe-
cial prehearing conference pursuant to
10 CFR 2.751(a) of the Commission's
Rules of Practice will be conducted on
March 30, 1978 in Columbia, S.C., at a
time and place to be specified later.

Please take notice that the special
prehearing conference will convene at
9:30 a.m. in Richland County Court-
house, Courtroom No. 3, Corner of
Washington and Sumter Streets, Co-
lumbia, S.C. 29202. All parties or their
counsel are directed to attend.

Dated at Bethesda, Md., this 6th day
of March 1978.

It is so ordered.

For the Atomic Safety and Licensing
Board.

IVAN W. SMITH,
Chairman.

(FTR Doc. 78-6295 Filed 3-9-78; 8:45 am)

[7590-01]

(Docket Nos. STN 50-566, STN 50-577)

TENNESSEE VALLEY AUTHORITY (THE
CZEK NUCLEAR PLANT, UNITS 1 AND 2)

Assignment of Atomic Safety and Licensing
Appeal Board

Notice is hereby given that, in ac-
cordance with the authority in 10 CFR
2.757(a), the Chairman of the Atomic
Safety and Licensing Board has
assigned the full-time position of
to serve on the Atomic Safety and
Licensing Appeal Board for the
construction permit proceedings.

Alan S. Rosenthal, Chairman
Dr. John H. Suck
Richard S. S. Suck

52. The amendment is effective as of its date of issuance.

The amendment to the technical specifications grants an extension for submitting the report on the 5-year nuclear biological environmental monitoring program.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §1.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated August 25, 1977, and (2) amendment No. 32 to License No. DPR-36. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of item (2) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 27th day of December 1977.

For the Nuclear Regulatory Commission

Robert W. Reid,
Chief, Operating Reactors
Branch No. 4, Division of Operating Reactors.

(NRC Doc. 75-202 Filed 1-5-78, 8:45 am)

[7512-01]

(Docket No. 50-339)

WILLIAM H. HANCOCK, JR., ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (NRC) has issued Amendment No. 33 to Facility Operating License No. DPR-36 issued to Wiscasset Public Library Association, Wiscasset, Maine, and Licensee and Pennsylvania Electric Co., Wiscasset, Maine, for the Wiscasset Public Library Association (Wiscasset Public Library Association).

Nuclear Station, Unit No. 1 (the facility) located in Dauphin County, Pa. The amendment becomes effective December 29, 1977.

This amendment deletes the requirements of the Technical Specifications dealing with respiratory protection since these requirements are now stipulated in 10 CFR 20.103.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §1.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated November 15, 1977, (2) Amendment No. 35 to License No. DPR-50, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Government Publications Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pa.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Md., this 29th day of December 1977.

For the Nuclear Regulatory Commission

Robert W. Reid,
Chief, Operating Reactors
Branch No. 4, Division of Operating Reactors.

[7590-01]

(Docket No. 50-391)

NUCLEAR ENGINEERING COMPANY, INC.

Receipt of Application for License Amendment and Request for Exemption, Notice of Opportunity for Public Comment

Nuclear Engineering Co., Inc. The INTCO, 9000 Shadeland Road, Suite

526, P.O. Box 7210, Louisville, Ky. 40207, has asked for approval of additional compacted fill burial trenches in particular "Trench 15" within the currently licensed 20.45 acres at the existing low-level waste burial facility located near Sheffield, Illinois, operated by NECO. The 20.45 acre site has been used for low level waste burial since 1968, and is owned by the State of Illinois. Because preparation of an Environmental Impact Statement for the site is in progress, the staff has informed NECO that it will allow use of Trench 15 only after a review following the criteria of 10 CFR 20.11(b), in addition to the regular safety and health review. NECO has requested permission to use Trench 15 prior to the completion of the overall environmental review under 10 CFR Part 5 of the license renewal and site expansion applications (see 42 FR 61522, December 5, 1977), based upon satisfactory consideration and balancing of the criteria in 10 CFR 20.11(b). These criteria are:

(1) Whether conduct of the proposed activities will give rise to a significant adverse impact on the environment and the nature and extent of such impact, if any;

(2) Whether redress of any adverse environmental impact from conduct of the proposed activities can reasonably be effected should such redress be necessary;

(3) Whether conduct of the proposed activities would foreclose subsequent adoption of alternatives; and

(4) The effect of delay in conducting such activities on the public interest. During the period of any exemption granted pursuant to this paragraph (b), any activities conducted shall be carried out in such a manner as will minimize or reduce their environmental impact.

A licensing decision on Trench 15 is needed by early February, 1978. NECO is to continue to bury radioactive wastes at the Sheffield, Illinois, facility. Any interested person may comment concerning the staff's approach for authorizing the use of Trench 15 and on the four criteria applied to Trench 15. Comments should be filed by January 31, 1978 with the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Division, or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20540.

Dated at Silver Spring, Md., this 30th day of December 1977.

For the Nuclear Regulatory Commission

Paul H. L. ...
Acting Chief, Low Level Waste
Branch 5, Division of Facility
and Site Safety

Atomic Safety and Licensing Board Panel

As a result of the above Federal Register Notice several petitions to intervene have been filed. The above Board will rule on these petitions. In addition, the NRC staff will publish in the Federal Register a Notice of Opportunity for Public Hearing. In this matter, the Board has no jurisdiction to rule on the application for an exemption, unless such jurisdiction is delegated to it by the Commission.

Dated at Bethesda, Md., this 10th day of March 1978.

ATOMIC SAFETY AND LICENSING
BOARD PANEL
JAMES R. YORE,

REVISION TO THE STANDARD REVIEW PLAN

Issuance and Availability

As a continuation of the updating program for the Standard Review Plan (SRP) previously announced (Federal Register notice dated Dec. 8, 1977), the Nuclear Regulatory Commission's (NRC's) Office of Nuclear Reactor Regulation has published Revision No. 1 to Section No. 13.3 of the SRP for the NRC staff's safety review of applications to build and operate light-water-cooled nuclear power reactors. The purpose of the plan, which is composed of 224 sections, is to improve both the quality and uniformity of the NRC staff's review of applications to build new nuclear power plants, and to make information about regulatory matters widely available, including the improvement of communication and understanding of the staff review process by interested members of the public and the nuclear power industry. The purpose of the updating program is to revise sections of the SRP for which changes in the review plan have been developed since the original issuance in September 1975 to reflect current practice.

Copies of the Standard Review Plan for the Review of Safety Analysis Reports for Nuclear Power Plants, which has been identified as NUREG-75-087, are available from the National Technical Information Service, Springfield, Va. 22161. The domestic price is \$70, including first-year supplements. Annual subscriptions for supplements alone are \$20. Individual sections are available at current prices. The domestic price for Revision No. 1 to Section No. 13.3 is \$4. Foreign price information is available from NTIS. A copy of the Standard Review Plan including all revisions published to date is available for public inspection at the NRC's Public Document Room at 1717 H Street, NW, Washington, D.C. 20555 (5 U.S.C. 552a).

Director, Division of Systems
Safety, Office of Nuclear Reactor
Regulation.

(FR Doc. 78-1100 Filed 3-16-78; 8:45 am)

Pursuant to the final advisory Committee Report (NRC-1400) dated January 1973, a review of a 2 day symposium of the Risk Assessment Review Group of the U.S. Nuclear Regulatory Commission (NRC) to be held at 2101 14th Ave. S.W. in Room 1111 of Building 20, University of California, Lawrence Berkeley Laboratory, Berkeley, Calif. The purpose of this meeting is to continue the review of the final report of the Reactor Safety Study (WASH-1400) and to receive peer comments thereon, to obtain information on developments in the field of risk assessment methodology and to discuss subjects that might be included in the report of the Review Group.

The Risk Assessment Review Group is an independent group established by the NRC (NRC FR 34055) for the purpose of providing advice and information to the Commission regarding the final report of the Reactor Safety Study, WASH-1400 (NUR-15-014), and the peer comments on the study, advice and recommendations on developments in the field of risk assessment methodology and courses of action which might be taken on future development and use of risk assessment methodology. This advice and information will assist the Commission in establishing policy regarding the use of risk assessment in the regulatory process. It will also clarify the commitments and limitations of the Reactor Safety Study. The Review Group will submit a report to the Commission on or before July 1, 1973.

In carrying out these assignments, it is anticipated that a number of working sessions will be scheduled at different locations, with notification to the public well in advance of each meeting. With respect to public participation in the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda may do so by providing 10 readily reproducible copies to the Review Group at the beginning of the meeting. Comments should be limited to areas within the Group's purview. Persons desiring to read written comments may do so by sending a readily reproducible copy thereof in time for consideration at this meeting. Comments so marked no later than March 24, 1973, to Dr. John H. Austin, Office of Policy Evaluation, NRC, 1215 H Street, N.W., D.C. 20545, will normally be received in time to be read at the meeting. Of course, comments not received in time for the meeting will be circulated to the members of the Review Group for consideration at a future meeting. Comments should pertain to

1. The NRC FR 34055, December 1, 1972, H Street, N.W., Washington, D.C. 20545.

2. The NRC's Regulatory Office of Inspection and Enforcement.

Room 1111, 2101 14th Avenue, King of David, N.W., Washington, D.C. 20545.
Room 1111, 2101 14th Avenue, King of David, N.W., Washington, D.C. 20545.
Room 1111, 2101 14th Avenue, King of David, N.W., Washington, D.C. 20545.
Room 1111, 2101 14th Avenue, King of David, N.W., Washington, D.C. 20545.
Room 1111, 2101 14th Avenue, King of David, N.W., Washington, D.C. 20545.
Room 1111, 2101 14th Avenue, King of David, N.W., Washington, D.C. 20545.

Copies of the Final Report may be obtained from:

U.S. Nuclear Regulatory Commission, Office of Nuclear Regulatory Research, Probabilistic Analysis Staff, Attn: Miles S. Faria, telephone: 301-402-3277, 1215 Old Georgetown Road, Bethesda, Md. 20814.

(b) Persons desiring to make an oral statement at the meeting should make a request to do so prior to the meeting, identifying the topics and desired presentation time so that appropriate arrangements can be made. The time allotted for such statements will be at the discretion of the Chairman. The Review Group will receive oral statements on topics relevant to its current or an appropriate time chosen by the Chairman.

(c) Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call on March 21, 1973, to the Office of Policy Evaluation, telephone: 302-354-3161, Attn: John Austin, between 8:15 a.m. and 3 p.m. EDT.

(d) Questions may be asked only by members of the Review Group.

(e) Statement of views or expressions of opinion made by members of the Review Group at open meetings are not intended to represent final determinations or rulings.

(f) The use of still motion picture, and television cameras, the placement of microphones and presence of which will not interfere with the conduct of the meeting, will be permitted only before and after the meeting and during any recess. The use of such equipment will not, however, be allowed during the meeting in session.

(g) A copy of the minutes of the meeting will be available for reproduction or after March 30, 1973, to the NRC, 1215 H Street, N.W., Washington, D.C. 20545.

Copies may be obtained upon payment of appropriate charges.

1215 H Street, N.W., Washington, D.C. 20545.
