PDR-016

Mr. Steven C. Sholly
Technical Research Associate
Union of Concerned Scientists
1346 Connecticut Avenue, NW
Washington, DC 20036

IN RESPONSE REFER
TO FOIA-85-69

Dear Mr. Sholly:

This is in response to your letter dated January 28, 1985, in which you requested, pursuant to the Freedom of Information Act (FOIA):

- A. All data reports and technical reports concerning the steel containment test series at Sandia National Laboratories,
- B. All NRC documents evaluating the results of the steel containment test series, and
- C. All documents generated by any peer review committees established to advise NRC and/or Sandia National Laboratories concerning the performance of the steel containment test series and interpretation of the test series results.

The documents listed on the enclosed appendix are in response to category (C) of your request. These documents are being placed in the NRC Public Document Room (PDR) file folder FOIA 85-69.

We presently have a pending FOIA request which addresses documents requested in categories A and B of your request. A partial reply has been made to this request and may be accessed at the PDR by requesting file folder FOIA-84-940. Copies of the request and our reply are enclosed. We expect to complete FOIA-84-940 by the second week of March. The completion of FOIA-84-940 will also complete the NRC's response to your request.

Sincerely,

J. M. Felton, Director
Division of Rules and Records
Office of Administration

Enclosure: As stated
