Contract No. 106087

DANA-FARBER Cancer Inst.
ATTN: Robert E. Stortz
Associate Director for Research
Administration
44 Binney Street
Boston, Massachusetts

Gentlemen:

This is to confirm our telephone conversation on January 29, 1987 with Mr. Ronald Amoling in which we discussed the information we need to continue review of your application dated August 25, 1986.

The items specified below are those we discussed.

1. Please submit the training and experience criteria that your Radiation Safety Committee will use in authorizing individuals to use the irradiators. This criteria could include at least 8 hours of didactic training and "hands-on" operation of the irradiator. Designation of users by your Committee will reduce the number of amendments necessary to add or delete user on this license.
2. Please submit your credentials to be the Radiation Safety Officer under this license.

If we do not receive a reply from you within 30 calendar days from the date of this letter, it may be necessary to deny your application for license renewal and to terminate your license. This action would require you to divest yourself of all licensed material in your possession.

Sincerely,

Original Signed By:

SUMMARY

Please submit a training program that your RSC will expect as sufficient for operation of your Irradiators. The program should include at least 1 hour of training in use of irradiator, and lectures on ~~Rad~~ Principles & Practice of RAD Safety. Designation of users by Committee will reduce # of amendments necessary to add or delete users in the license. Submit your certificate with letter.
