Dear Ms. Vacherlon:

40-8382
As per your recent phone conversation with Dr. G. S. Kapoor, we are requesting that our license no. SUC-1229, covering depleted uranium used in shielding in our linear accelerator be terminated.

We are further requesting that the depleted uranium be added to our by-product material license no. 13-16558-01. Please refer to Control No. 77015, dated 7-5-84, when referring to this request. Also, please note that as per your advice, on the phone, we are not enclosing any fees.

Thank you for your assistance in this matter.

Sincerely,

Robert L. Beyer
Vice President
Clinical/Professional Services
