

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

REGION IV

611 RYAN PLAZA DRIVE, SUITE 400  
ARLINGTON, TEXAS 76011-8064

JAN 5 1993

MEMORANDUM FOR: John A. Grobe, Chief  
Nuclear Materials Safety Branch, RIII

FROM: Charles L. Cain, Chief  
Nuclear Materials Inspection Section

SUBJECT: PROFESSIONAL SERVICE INDUSTRIES, INC.  
DOCKET NO. 030-11906

Region IV received a phone call from Professional Services Industries, Inc. (PSI) on November 10, 1992, with an inquiry on NRC requirements for nuclear gauge users. PSI is a Region III licensee, License Number 12-16941-01. Their corporate offices are located in Lombard, Illinois. The call to RIV came from PSI's Oklahoma location (801 SE 59th Street, Oklahoma City). License Condition 10 authorizes the storage of radioactive material at the Oklahoma location.

During the phone conversation, there was an indication by the licensee that they were servicing nuclear gauges at this location. This prompted a visit to the licensee's office in Oklahoma City by a RIV inspector on December 4, 1992, to determine what licensed activities were being performed at this location.

The inspector determined that the licensee possessed 8 nuclear gauges which were used for moisture density measurements throughout the state of Oklahoma. The licensee contact at this location explained that he had been recently appointed to the position of radiation safety officer for this office in Oklahoma City, and that he had called the RIV NRC for assurance that he had all of the required regulations and information needed for nuclear gauge users. He stated that the nuclear gauges are not serviced at this location but are sent to their Pittsburgh, PA, office for servicing.

Should you have any questions concerning this memo, please contact me at (817) 860-8186.
