Dear Mr. Reilly,

Per our discussion on December 18, 1992, enclosed is a copy of NUREG/CR-5849 "Manual for Conducting Radiological Surveys in Support of License Termination" prepared by the Oak Ridge Associated Universities for the Nuclear Regulatory Commission. This manual describes the methods and procedures that should be used to determine whether residual radioactive material in the warehouses and soil adjacent to the warehouses on the former Defense Logistics Agency property in Curtis Bay, Maryland satisfies NRC's criteria for unrestricted use.

If you have any questions concerning this manual, please contact me at 301 504-2566.

Sincerely,
