DEC 24 1992

Docket No. 50-344

Portland General Electric Company
121 S.W. Salmon Street
Portland, Oregon 97204

Attention: Mr. James E. Cross
Vice President and Chief Nuclear Officer

SUBJECT: NRC IN-OFFICE INSPECTION

This letter refers to the in-office inspection conducted by Ms. G. M. Good of this office during the period November 9 through December 15, 1992, of activities authorized by NRC License No. NPF-1, and to the discussion of our findings held by Ms. Good with Mr. T. Walt and other members of your staff at the conclusion of the inspection.

This in-office inspection was conducted to review Revision 7 to emergency plan implementing procedure EP-001, "Emergency Classification," submitted to us on July 13, 1992, under the provisions of 10 CFR 50.54(q) and 10 CFR 50, Appendix E.IV.B and E.V.

No deviations or violations of NRC requirements were identified within the scope of this inspection. EP-001, Revision 7, continued to meet the standards in 10 CFR 50.47(b) and the requirements in 10 CFR 50, Appendix E; however, one of the changes appeared to decrease the effectiveness of the emergency plan.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

Ross A. Scarano, Director
Division of Radiation Safety
and Safeguards
