MEMORANDUM FOR: John F. Stolz, Project Director  
Project Directorate I-4  
Division of Reactor Projects - I/II

FROM: David H. Jaffe, Senior Project Manager  
Project Directorate I-4  
Division of Reactor Projects - I/II

SUBJECT: ERRATA SHEET FOR THE MAY 19, 1992 MEMORANDUM,  
FROM A. THADANI TO S. VARGA, SUBJECT: "MILLSTONE 1 ECCS  
ANALYSIS WITH OR WITHOUT FEEDWATER COOLANT INJECTION FAILURE"

The first sentence of the subject memorandum should be changed to read as follows: "The Reactor Systems Branch reviewed the Emergency Core Cooling System (ECCS) analysis for Millstone Unit No. 1 (MNPS-1) because of questions raised about an apparent inconsistency between the Technical Specification Bases for the feedwater coolant injection (FWCI) system and the licensee's Safety Evaluation ISE/MP1-90-26, Revision 0, "One Pump Feedwater Flow Control Setpoint Change." This change is necessary to correctly reflect the two documents used for comparison in the subject memorandum.
