ITEM 8 Licensed Material

*X See 9. Brown
by 5/30/79* Please make the following changes to Item 8: (1) Increase the maximum amount of Californium-252 to 13.5 mCi (25 micrograms); add 25 gm Plutonium-238 as suggested in exhibit #1. f

ITEM 9 Please add the following

... and receiving for disposal the following:

- 1) Sealed Sources contained in Ohmart source holders when these devices are no longer needed by the licensee.
- 2) Sealed Sources contained in devices manufactured by other manufacturers when receipt of such devices occurs pursuant to Ohmart's normal business. Ohmart does not solicit disposal business nor does it advertise itself as a "disposal agency".

ITEM 15 Radiation Protection Program.

Personnel monitoring.

The Ohmart Corporation will supply appropriate personnel monitoring equipment for: (1) Each individual who enters a restricted area under such circumstances that he receives or is likely to receive a dose in any calendar quarter in excess of 25 percent of the applicable value specified in paragraph (1) of Part 20.101. (2) Each individual who enters a high radiation area. (3) Any other individual for whom personnel monitoring is deemed desirable by the Ohmart Isotope Committee

In addition to the above, although Ohmart handles only sealed sources, any employee may elect to receive a whole body count upon request at the Radioisotope Laboratory of the University of Cincinnati.

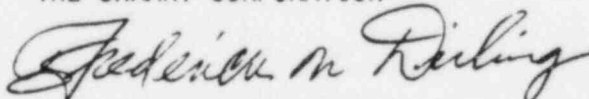

(Note: See exhibit #2 for proposed changes to Ohmart's personnel monitoring procedures)

ITEM 16 & 17 Training and experience of the individuals listed in Items 6 and 7.

See exhibit #3.

Sincerely,

THE OHMART CORPORATION

Frederick N. Dirling
Radiation Safety Officer
