Dear Mr. Chernoff:

Under cover letter dated July 16, 1992, the U.S. Nuclear Regulatory Commission staff concurred on the Final Completion Report and all associated documents pertinent to the completed remedial action at the inactive uranium mill tailings site in Green River, Utah. This cover letter also transmitted a copy of the NRC's final Completion Review Report (CRR) and the signature pages. Unfortunately, we enclosed an earlier draft version of the final CRR that contained material from the draft CRR of October 1991. Specifically, it carried over our statement of non-concurrence in Section 3.0 from the draft CRR. As a result, the final Green River Completion Review Report has been re-issued and is being transmitted under cover of this letter.

I hope our error has not caused you any inconvenience. If you have any questions regarding this situation, please contact me at FTS 964-3439 or the NRC project manager, Sandra L. Wastler, at FTS 964-2582.

Sincerely,

ORIGINAL SIGNED BY
