 Docket No. 40-8728
 SUA-1373, Amendment No. 14
 04008728290E

MEMORANDUM FOR: William O. Miller, Chief
 Licensing Fee Management Branch
 Office of Administration

FROM: Sandra L. Wastler, Project Manager
 Licensing Branch 1
 Uranium Recovery Field Office, Region IV

SUBJECT: FEE EXEMPTION FOR UNC TETON EXPLORATION DRILLING
 INC., LEUENBERGER SITE, SOURCE MATERIAL LICENSE
 SUA-1373, AMENDMENT NO. 14

The Uranium Recovery Field Office is issuing an amendment to License Condition No. 38 to modify the completion date for well plugging. As required by the NRC, Teton has committed to complete all well plugging in accordance with WDEQ redquirements and cannot begin actual well plugging until WDEQ approval is received. WDEQ is presently reviewing UNC Teton's proposed well plugging procedures against the required procedures, but have not completed the review. Therefore, the completion date for well plugging as given in License Condition No. 38 must be modified.

Because this revision is the result of WDEQ and because the NRC's requirements for well-abandonment have been met, Amendment No. 14 should be exempt from fee.
