

UNITED STATES NUCLEAR REGULATORY COMMISSION  
VIRGINIA ELECTRIC AND POWER COMPANY  
DOCKET NOS. 50-338 AND 50-339  
NOTICE OF WITHDRAWAL OF APPLICATION FOR  
AMENDMENTS TO FACILITY OPERATING LICENSES

The United States Nuclear Regulatory Commission (the Commission) has granted the request of Virginia Electric and Power Company (the licensee) to withdraw its January 16, 1990 application, as supplemented March 29, 1990, and December 13, 1990, for proposed amendments to Facility Operating License Nos. NPF-4 and NPF-7 for the North Anna Power Station, Unit Nos. 1 and 2, located in Louisa County, Virginia.

The proposed amendments would have changed the Technical Specifications to allow the use of solid stainless steel or solid Zircaloy-4 filler rods in place of fuel rods that are known to be failed, to remove the rod uranium weight limit of 1780 grams, and to limit the use of filler rods.

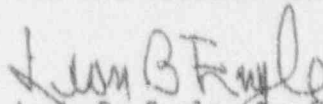

The Commission has previously issued a Notice of Consideration of Issuance of Amendments published in the FEDERAL REGISTER on April 27, 1990 (55 FR 17848) which was reissued in the FEDERAL REGISTER on May 29, 1991 (56 FR 24222). However, by letter dated December 30, 1992, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendments dated January 16, 1990, as supplemented March 29, 1990, and December 13, 1990, and the licensee's letter dated May 1, 1992, which withdrew the application for license amendments. The above documents are available for

public inspection at the Commission's Public Document Room, 2120 L Street, NW., Washington, D.C., and the Alderman Library, Special Collections Department, University of Virginia, Charlottesville, Virginia 22903-2498.

Dated at Rockville, Maryland this 14th day of January , 1993.

FOR THE NUCLEAR REGULATORY COMMISSION

Leon B. Engle, Project Manager  
Project Directorate II-2  
Division of Reactor Projects - I/II  
Office of Nuclear Reactor Regulation
