Mr. Clarence F. Pautzke
Commissioner
Fish and Wildlife Service
U. S. Department of Interior
Washington, D. C. 20240

Dear Mr. Pautzke:

In accordance with the understandings which were reflected in Secretary Udall's letter of March 20, 1964 to Chairman Seaborg, I am forwarding herewith Volumes I and II of the Facility Description and Safety Analysis Report filed by Northern States Power Company with its application for authorization to construct and operate a boiling water nuclear reactor on its site located on the west bank of the Mississippi River, approximately three miles northwest of Monticello in Wright County, Minnesota.

We would appreciate receiving a report from the Fish and Wildlife Service concerning those features of the proposed reactor operation which might have radiological effects on fish and shellfish.

On the basis of our tentative schedule for this project, it would be helpful to have your report available for our use by November 1, 1966.

Sincerely yours,

(signed) Harold L. Price

Harold L. Price
Director of Regulation
