U.S. Nuclear Regulatory Commission
 License Management Branch
 Division of Fuel Cycle and Material Safety
 Washington, DC 20555

SUBJECT: MATERIAL LICENSE NO. 06-10081-03

Gentlemen:

Philips Medical Systems, Inc. is in possession of U.S. Nuclear Regulatory Commission Material License No. 06-10081-03, as amended, covering the authorized use of 100 millicuries of Cesium 137 (sealed source) and 100 microcuries of Barium 133 (sealed source). This licensed material is used for calibrating survey meters and testing equipment at the above address.

Our license expires on November 30, 1984, and we would like to continue licensed coverage in accordance with our current license CONDITIONS, as per enclosed Form NRC-3131 dated today, with attachments and check for \$110.00 (Ref. 10 CFR Part 170.31-3L) covering the license renewal fee. You will find that the items contained in the present license dated December 11, 1979, and amendment no. 1 dated October 9, 1975, and amendment no. 2 dated December 11, 1979, are still applicable and, in accordance with your notice dated May 2, 1979 (Program Code 03120), we are, therefore, resubmitting the supporting documentation herewith.

We would also like to take this opportunity to request that the following changes be made part of our renewed license:

1. Delete - Eric C. Lavers as authorized user
 Add - Charles S. Worrilow as authorized user
2. Add new source for survey meter calibration
