Control #17707

Dear Sir:

Effective May 20th, 1985, TII Industries has ceased manufacturing surge protectors using H3. All contaminated equipment such as pumps and manifolds will be packed and sent for burial. Manufacturing area and other equipment with surface contamination will be decontaminated as soon as possible. We expect to have everything completed by or before Oct. 1st, 1985.

Any advise or comments regarding this matter will be welcome.

Truly yours,

Greg Cortes
R.S.O.

SUBJECT

SUMMARY

Declined letter from TIE dated 3/28/85 and replied by Raul Pilegrina, plant Manager - Informed Cortez as follows:

1. As soon as the Manufacturing operation is closed a letter should be sent to us confirming this (Cortez said this was to be done)
2. we will then issue a storage order letter.
