Docket No. 50-266
Docket No. 50-301

Wisconsin Electric Power Company
ATTN: Mr. C. W. Fay
Vice President
Nuclear Power Department
231 West Michigan, Room 308
Milwaukee, WI 53201

Gentlemen:

This refers to the routine safety inspection conducted by Mr. W. Snell and others of this office on May 6-9, 1985, of activities at the Point Beach Nuclear Plant authorized by NRC Operating License Nos. DPR-24 and DPR-27 and to the discussion of our findings with Mr. J. Zach and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in non-compliance with NRC requirements, as specified in the enclosed Appendix A. A written response is required.

It is noted that the noncompliance, which concerned the capability of the Shift Superintendents to make an adequate protective action recommendation, is a repeat noncompliance from the July 23-27, 1984 routine emergency preparedness inspection (IE Report Nos. 50-266/84013; 50-301/84011). This is to confirm the commitment made by licensee representatives at the exit meeting on May 9, 1985, that prompt corrective action concerning this repeat noncompliance would be taken by revising applicable procedures within two weeks and retraining all Shift Superintendents within one additional week from the date of the exit meeting.

Weaknesses identified during this inspection which should be corrected by your staff are summarized in the attached Appendix B to this letter. Please advise us within 45 days of the date of this letter of the actions you plan to take showing the estimated date of completion, with regard to these weaknesses.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.
