Mr. Leland C. Rouse, Chief
Advanced Fuel & Spent Fuel Licensing Branch
Division of Fuel Cycle and Material Safety
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Rouse:

Re: Topical Report Docket No. M-33 and M-36

1. Change of Applicant of Record
2. Docket Continuation

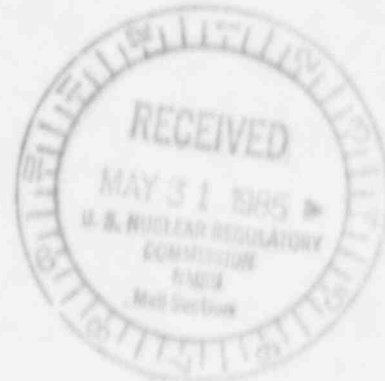

By authority of this letter, we are 1) agreeing to and 2) requesting the NRC to accept the change in applicant of record for Docket Nos. Project M-33 and M-36 from Ridihalgh, Eggers & Associates, Inc. to Mitsubishi Heavy Industries, Ltd., Tokyo, Japan (MHI) effective April 5, 1985.

Additionally, we ask that the subject docket numbers remain open beyond the May 28, 1985 date of your letter.

As of April 5, 1985, we and MHI have signed an agreement for the sale of the REA 2023 BWR and PWR technology, the PWR and BWR Topical Reports, and the transfer of NRC Docket Nos. M-33 and M-36 from REA to MHI.

Per our letter of February 26, 1985 and your response of March 18, 1985 (both attached), we have advised MHI of the information in Section 72.14(a) through (d) of 10 CFR Part 72.

As requested and directed by MHI, we will be assisting MHI in 1) the completion of the applicant of record change details, and 2) completion of both of the Topical Reports.

February 26, 1985

Mr. John P. Roberts
Advanced Fuel and Spent Fuel Reprocessing
Nuclear Material Safety and Safeguards
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Roberts:

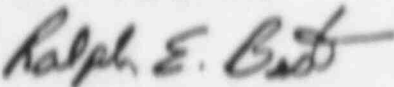

Subject: Docket Nos. M-33 and M-36

As we discussed on February 21, 1985, REA and its parent company, Enerfab Corporation, are currently actively pursuing sales of the REA 2023 dry storage cask technology. If successful, we expect that a buyer for this technology will be pursuing completion of either or both of the REA 2023 cask topical reports docketed by the NRC. Accordingly, we request that the NRC hold Docket Nos. M-33 and M-36 open for 90 days beyond the date of this letter or until further communication by REA or Enerfab in anticipation of future continued activity.

We also request advice regarding what information needs to be forwarded to the NRC to effect a change of name for the applicant of record for each of the referenced dockets. Please respond to this request at your earliest convenience.

Please call me or Mr. Lowell Bowie at Enerfab [(513)-641-0500] if you have any questions.

Sincerely yours,

Ralph E. Best
General Manager

Project M-33 & Project M-36

Ridihalgh, Eggers & Associates
ATTN: Mr. Ralph E. Best
General Manager
2219 Summit Street
Columbus, OH 43201

Dear Mr. Best:

In response to your request in your letter dated February 26, 1985 to John P. Roberts of my staff, we shall hold Docket Nos. Project M-33 and Project M-36 open until Tuesday, May 28, 1985.

It is our understanding that there is nothing in Nuclear Regulatory Commission regulations prohibiting a change in the applicant of record. The information needed is that specified in Section 72.14(a) through (d) of 10 CFR Part 72.

Sincerely,

Leland C. Rouse, Chief
Advanced Fuel and Spent Fuel
Licensing Branch
Division of Fuel Cycle and
Material Safety
