License No. 24-01113-02

Gentlemen:

We have reviewed your letter dated February 21, 1985, requesting an amendment to License No. 24-0111-05 and find that we will need additional information as follows:

In order for us to add Messrs. Taylor, Young and Litzsinger to your license as authorized users, we will need a description of their training and experience with fixed industrial gauges.

Training should, as a minimum, be equivalent to that provided by the manufacturer. Training provided by someone other than the device manufacturer must be described in detail. The description should include the names and qualifications of the instructors, an outline of the training program, duration of the training program, and the method for determining trainee competency.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 78407.

Sincerely,
